To qualify, a sailor must participate in or get credit for at least 50% of the races

OR be out there at least half of the eight days that Radials raced,

AND satisfy the race committee obligation

If you do not see an RC date next to your name, that means the scorers

have no record of you (or an approved sub) having served, nor have you signed up for a date yet.

Of course, that might be incorrect. We might have some results wrong as well.
